ENGLISH	B2	B2	B2	B2	B2
GERMAN	A2	A2	A2	A2	A2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

DIGITAL SKILLS

Microsoft Office | microsoft access | Creation of Access databases | C# | Java | Basic React | .NET Framework | SQL | Git | JSON | MySQL | XML | CSS | HTML | Java Hibernate | Serenity | Spring Framework (Spring CORE, Spring MVC Spring Boot) | React Native | DevOps and Automation (Continuous Integration/Continuous Deployment, GitOps) | Medium knowledge of JavaScript HTML CSS

DRIVING LICENCE

Driving Licence: B

● PROJECTS

10/08/2019 – 05/06/2020

Car management application "Excellence Car"

<https://github.com/OteleaFelix98/ExcellenceCarServer>

<https://github.com/OteleaFelix98/Excellence-car-client>

A crud application that returns for the user the perfect car model after using a search engine (having keywords).The user has to register first and can update delete or add car models in the database after logging in.

The backend is developed using .NET framework and MSSMS as database for the car models.For the login data,Firebase is used .

The frontend is developed using React .The frontend application is divided in components ,having navigation bar that helps crossing through them.

.NET FRAMEWORK +C# - SERVER

REACT-CLIENT

18/10/2019 – 10/12/2019

E-Shop -University Project

An e-shop for electronics using PrestaShop ,where the user can buy products.The admin can see the stocks and all worth informations having all the components automatically generated .As an admin you can add products ,change de style of the e-shop and add more modules.

Tehnologies used:

Prestashop

Wampserver

phpMyAdmin

06/03/2019 – 02/04/2019

CarGame 2D

A simple 2D survival game where you need to avoid obstacles and control your car using keyboard.The obstacles are autogenerated in the WPF file and the road lines are moving giving the effect .For the loop that makes the game moving it is used an chronometer that stops when the car has the same coordonates with an obstacle.

Tehnology used:

C#

WPF

05/04/2019 – 07/04/2019

JavaFXProject

<https://github.com/OteleaFelix98/NetContract>

20/10/2020 – 16/12/2020

Wineyard Manager

<https://wineappui.azurewebsites.net>

An appication using React library for the User Interface ,GitHub for the version control and Java for backend applying Agile principles.For the backend part I used Java (Lambda expressions and Spring Framework) . After finishing the project ,I used Serenity for testing .

● HOBBIES AND INTERESTS

Aikido

I practice Aikido for 5 years .
